# Powerful Automation

Achieve unparalleled efficiency and customer satisfaction by leveraging business-centric automation for:

- User Task Creation & Prioritisations
- Onboarding
- Risk Management
- Credit Decisions
- Collections Strategies
- Dispute Assignment, Escalations & Resolutions
- Deductions

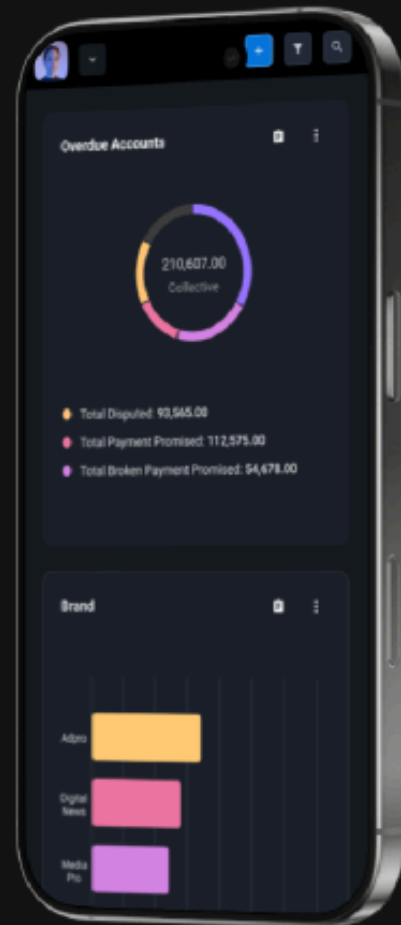

# The User

A personalised, multi-channel workspace featuring prioritised task management, combined with integrated call, email, SMS, postal, and payment capabilities.

- **Customised user dashboards** with assigned tasks, relevant customer data, and personal performance metrics.
- ✓ Complete all tasks from a **single workspace** with a comprehensive suite of tools, eliminating the need to switch between multiple platforms.

# Customer Self-Service

- Provide customers with a **360-degree** view of their account where they can make payments, raise and monitor dispute management.
- Mobile enabled.

# Built For **User Collaboration**

Designed to empower teams with real-time visibility, shared workflows, and seamless coordination across every user touchpoint

- Office of the CEO
- Credit Risk & Collection Managers
- Sales & Branch Managers
- Operational Credit Control and Credit Risk Teams

# Invevo vs SAP – At a Glance

Category	SAP	Invevo
Functional Focus	AR is one of many broad financial models. Credit & collections lack specialisation without additional investment, development and delays.	<b>Purpose-built for the entire credit-to-cash lifecycle. Deep automation, real-time credit risk scoring, intelligent collections &amp; dispute management, customer self-service, and AI-driven insights.</b>
Speed to Value	Minimum 6 month implementation. Requires significant planning, consultants, and SAP-specific expertise.	<b>Deployed in weeks. Out-of-the-box workflows, no-code setup, minimal IT involvement. Fast onboarding.</b>
Flexibility & Customisation	Customisation is expensive, risky and slow to roll out.	<b>100% configuration-led: update workflows, dashboards, and rules without code. Business users can adapt the system themselves.</b>
User Experience (UI/UX)	Complex navigation. Generic layouts not tailored to AR roles. Training is required.	<b>Modern, intuitive UI designed specifically for AR users. Role-based workspaces, smart widgets, and clean navigation. High end-user satisfaction.</b>
Innovation Pace	Slower innovation cycles tied to enterprise release planning. Most innovation directed at core ERP, not AR modules.	<b>Fast-moving SaaS company. Continuous delivery of new features including AI, analytics, and usability improvements.</b>

TIME TO VALUE

# How We Deliver Value Fast

# Typical Implementation Timelines

**Low Complexity = 1 Week** – Out the Box

**Medium Complexity = 2 weeks** – Bespoke Configuration

**High Complexity = 4 weeks** – Complex Data Structure

Don't just take our word for it

# What Our Customers Say

*“Invevo created a bespoke solution to meet the unique needs of each part of our business—something most solutions can't handle. Now, our accounts teams follow a consistent and traceable process, regardless of location or business unit.”*

**ELISABETH DOPPELHOFFER**  
GLOBAL HEAD OF COLLECTIONS

*“With Invevo, we’ve gained the live credit information and business insight needed to make data-informed decisions, be proactive rather than reactive, deliver money in the bank and keep Adecco ahead of the competition.”*

**ANNA MORRIS**  
GLOBAL PROCESS OWNER

THE ADECCO GROUP

## AWARD WINNING DISPUTES MANAGEMENT OFFERING

Adecco Global, the largest recruitment company in the world, was looking to implement a global software provider to deliver a standardised framework across its accounts receivable process to optimise cash collection and drive working capital improvement.

*Invevo generated an annual saving of £1.2m and created a 400% ROI.*

### Key Metrics Improvement:

- ⬆ **£19.97m** forecasted in first year with **£54.6m** collected.
- ⬆ **273%** collected vs predicted period
- ⬆ **30** day DSO reduction
- ⬆ Bad debt reduction of **65%**
- ⬆ Dispute resolution increase of **49%**
- ⬆ Working Capital \*improvement of **28%**

\*over 12month period
